

TECHNICAL INFORMATION

Todd Trocar Well Cabinet Mounted

DST 204

The Todd Trocar Well houses 3 trocars in a vertical position for disinfecting and sterilizing. The two-piece unit consists of housing and lift out well. It is installed in a cabinet counter top.

SPECIAL FEATURES

- cabinet mounted
- disinfectant well lifts out of the housing for easy handling and clean-up
- shaped to greatly reduce the volume of disinfectant needed
- flush cover for easy access and uncluttered work space

SPECIFICATIONS

- 3 trocar holders are 28" in vertical position
- housing and hinged cover are fabricated from a hard, durable white plastic
- disinfectant well is molded poly material
- handle is stainless steel

INSTALLATION

- requires hanging space of 31" within the cabinet
- drops into a nominal counter top dimension of 8³/₈" by 9³/₈"
- supplied with mounting hardware, template and installation instructions
- do not cut out counter top without template

TECHNICAL INFORMATION
